

COVID-19: RETURN TO SPORT GUIDELINES

Basketball Western Australia has developed *Return to Sport Guidelines* specific to basketball associations and providers within Western Australia. The guidelines are designed to provide our 78 associations (herein referred to as 'members') with the framework for reactivating our sport in a safe and suitable manner. In formulating these guidelines, *Basketball Western Australia* aims to provide our members with clarity about what and how basketball activities can resume depending upon the different levels of restriction likely to be imposed by state and federal governments during the remainder of the COVID-19 pandemic. The guidelines may need to be altered in consultation with the state government as we enter new phases. In all cases, associations will need to consult closely with their landlord/local government on the implementation of the guidelines.

These guidelines are developed with the primary intention of ensuring good hygiene and restricting the number of people within stadiums at any one time to reduce the chances of person-to-person transmission of COVID-19. The guidelines differ according to the number of courts per stadium and the level of restrictions imposed by the state and federal governments. They should be viewed as the minimum requirements for a return to sport and, it should be noted that, *Basketball Western Australia* encourages all members to minimise attendance of non-participating persons where possible.

The principles of these Guidelines are:

- Participant health and safety
- Compliance with WA Government COVID-19 restrictions during each Phase of Restrictions
- Alignment with the nationally agreed principle for the re-introduction of sport and recreation
- Consistency with the Rules of Basketball

There are five reactivation levels specific to the return of individual activities. These levels are coded to reflect the maximum number of participants allowed, with RED-0 signifying the highest level of restriction as provided by Government Restrictions, the classification of the AIS and Basketball Australia. It is possible that, with the winding back of government restrictions, reactivation levels will be altered to be consistent with the advice from government at the time and some levels may be skipped. *Basketball Western Australia* will list the current reactivation level for each type of activity on our website for members to reference as needed. If contact is not allowed during a reactivation level then please refer to Appendix 10 for mandatory guidelines that must be met to ensure social distancing remains.

RED-0	No Group Activities
RED-20	Training only (with or without contact) of a maximum of 20 people per activity space
ORANGE-24	Activities or gathering of a maximum of 24 participants per court
ORANGE-50	Activities or gathering of a maximum of 50 participants per court
GREEN-150	Activities or gathering of a maximum of 150 participants per court

These guidelines have been shared with the state government, and as such, may be used as a guide by government agencies to determine our sport's compliance with restrictions. In addition, *Basketball Western Australia* will have designated venue audit staff attending venues throughout the state to ensure members are adhering to the principles of the guidelines. These staff will attend venues in an adhoc manner and will complete a venue audit whilst in attendance.

Members will be required to nominate a Biosafety Officer (BSO) whenever their venue is in use for competition from Orange-24 (Stage 3) levels onwards. This person may perform other duties at the same time, such as Referee, Referee Supervisor or Court Supervisor, Door Keeper or Cashier depending on the size of the venue and the general operations of the stadium. The BSO must not be responsible for more than four (4) courts at any one time. The BSO must complete a venue checklist for each shift and return it to management to be retained for a minimum of 21 days.

As there is a chance of future cases of COVID-19 throughout our community, we ask that Basketball Western Australia be informed of any issues related to the COVID-19 pandemic affecting your club or association, including any new cases of infection.

The levels of reactivation will be applied to basketball activities in the following categories:

COMPETITION	Including but not limited to, domestic, recreational, schools and Premier competitions played, both indoor and outdoor.
TRAINING	Including but not limited to, training for domestic or Premier team, indoor and outdoor.
DEVELOPMENT	Including but not limited to, Aussie Hoops, Junior Development Programs and Camps.
REACTIVATION LEVEL	
RED-0 (Stage 1)	This level will require members and teams to stop training and games and to avoid gatherings with people not from the same household. At this level, participants should not be sharing any equipment and all efforts should be made to sanitise equipment before, during and after use. Individuals may continue to train and exercise outside of stadiums provided they adhere to the relevant state and federal government restrictions.
RED-20 (Stage 2)	<p>Some basketball activities may resume, up to gathering of a maximum of 20 participants per activity space. This restriction will only allow training. Members should consider age groups that are most suitable for participation at this time due to the restriction on the attendance of parents and/or guardians. Where minors are involved, noting that there will be greater responsibility on coaches and team managers, members are reminded to consider the suitable child protection requirements for the age group, noting that parents will determine if they are comfortable with their child participating.</p> <p>This level will enable teams to resume training in small groups, whereby the number of participants, excluding coaches and staff, does not exceed 20. Please note that this may or may not include contact allowed during training. If contact is not allowed then please refer to Appendix 10 for mandatory guidelines that must be met to ensure social distancing remains.</p>
ORANGE-24 (Stage 3)	<p>From this point onwards, members will be required to appoint a Biosafety Officer whenever their venue is in use for competition.</p> <p>This level will allow for a controlled return to 5x5 basketball competition and contact training. For competition is allowed, the number of players per team may need to be reduced to accommodate a maximum gathering of 24 participants (excluding staff) per court. Members should consider competition age groups that are most suitable for participation at this time. This may include consideration of how participants travel to and from games and relevant child protection requirements for the age group as all competition will need to take place without spectators.</p>
ORANGE-50 (Stage 4)	In Western Australia, we have skipped this stage under advice from the Health Department.
GREEN-150 (Stage 5)	<p>It is suggested as a guide to think of a gathering of a maximum of 150 people per court at this level. The total number will depend on the amount of space you have in your stadium/venue as you must allow at least 2m² per person within your venue. A basketball court (with its run-off) has approximately 608m² of space. Using a rule of thumb of 150 people per court will allow players and parents from Group a to cross-over with those from Group B and still maintain numbers within these rules (of course this doesn't even allow for spaces such as foyers and walkways). Social Distancing should still be encouraged off the court so you may need to be careful in creating spectator spaces and reasonable in how people use this space.</p> <p><i>Senior Premier games played on one court may include spectators up to a maximum of 50% of normal capacity. All efforts should be made by members to ensure a safe and hygienic environment with adherence to physical distancing guidelines.</i></p>

This document provides members with several resources and guidelines included as appendices. These include:

- Participant Training Register
- Return to Basketball Association Checklist
- WA Government COVID Safety Plan
- Biosafety Officer Position Description
- Game Day Checklist to be completed by the BSO
- Player and Team Information
- Game Official Information
- Australian Government Public Health Announcements
- 'How to' guide on the sanitisation of equipment

2m² per person rule.

During Phase 4 (Green-150) of re-activation there will only allowed to be a maximum number of participants/patrons (plus staff) in your venue that allows each person at least 2m² of space.

For your association, you will need to confirm the number of people allowed within your venue with your venue owner/manager and ensure that this is managed. The 150 person per court is just a guide to allow you to think about the approximate number that will likely be allowed in your venue.

Indoor Sports Stadium

The reactivation levels will pose some additional management requirements on members. *Basketball Western Australia* encourages members to plan accordingly with their landlord (generally your local government) to ensure a smooth transition back to sport during the COVID-19 pandemic based on the size and operations of each venue. It is impossible to set out definitive guidelines for each venue. Members need to consider the specific circumstances of each venue that they use and must liaise with their landlord in all cases.

Basketball Western Australia recognises that Indoor Sports Stadiums (Basketball Stadiums) are large scale venues with significantly more open space per person than regular indoor spaces. A basketball court, including 2m run off, is 608m² and at least 4560m³ (volume). Our Return to Sport Guidelines calculate venue access based on the maximum number of people per court at each level of the reactivation strategy from Stage 3 onward.

Basketball Western Australia suggests that you may need to discuss with venue manager how to manage spectators during our GREEN-150 level depending on how your courts are set-up. As a guide to consider, 40 people is equivalent to 1 person every 1.5m along the 2 baselines and 1 sideline, leaving the remaining sideline clear for participants. Stadiums that do not have clear space on these three sides of their courts may need to consider this in how they manage spectators.

Senior Premier Competition

During the GREEN-150 level, Senior Premier competitions would be able to have spectators up to a total of 50% of normal spectator capacity for games played on a single court.

TABLE 1
Maximum Indoor Venue Capacity Table per Court

PAX Total number of people within the venue including participants and spectators (not staff)

Tot m2 Total square meters within the venue based on the total number of courts in the venue. This number is court area only and does not include additional communal areas such as foyers, thoroughfares, toilets etc.

m2 P.P. This is the average area available to each individual based on Total Square Meters divided by the Total number of people in the venue.

TRAINING - INDOOR

Indoor training is determined as planned or unplanned sessions performed by athletes whether with or without a coach. This policy is designed to limit the transmission of COVID-19 from athlete to athlete and to ensure the environment remains safe. Members are encouraged to establish effective procedures that will ensure adherence to these guidelines especially when training is scheduled to be conducted outside normal business hours. This will include associations ensuring that coaches fulfil all the requirements during training days/times when required and participants (other than spectators) name and contact must be recorded at all times.

During Phase 4 (Green 150) of re-activation there will only allowed to be a maximum of people within your venue that allows for each person to have 2m² of space. For simplicity we are suggesting that you use 150 people per court as a rule of thumb for your venue and discuss this with your venue owner/manager given that a single court has 608m² of space including the run-off allowance. This is an average of 4m² per person and thus allows for a full crossover of people between games to be within your venue and remain at greater than 2m² per person. In practice, you will need to work with your venue manager to determine a maximum number of people allowed in the venue (providing at least 2m² per person) and ensure that there is never more than that number within the venue.

TRAINING - OUTDOOR

Outdoor training is determined as planned or unplanned sessions performed by athletes whether with or without a coach. This policy is designed to limit the transmission of COVID-19 from athlete to athlete and to ensure the environment remains safe. Members are encouraged to establish effective procedures that will ensure adherence to these guidelines for organised outdoor sessions. This may include supplying each team manager with hand sanitiser and cleansing wipes to provide to participants. Members are also encouraged to communicate with the wider basketball community in their area on the safe use of outdoor facilities for unplanned sessions.

COMPETITION – GENERAL DOMESTIC and WABL

General competition is classified as 5 on 5, 3 on 3, Domestic and Premier Competitions of all age groups, both indoor and outdoor. General competition guidelines are relevant when the general participant attends a stadium for the purpose of playing in a single game.

During Phase 4 (Green 150) of re-activation there will only allowed to be a maximum of people within your venue that allows for each person to have 2m² of space. For simplicity we are suggesting that you use 150 people per court as a rule of thumb for your venue and discuss this with your venue owner/manager given that a single court has 608m² of space including the run-off allowance. This is an average of 4m² per person and thus allows for a full crossover of people between games to be within your venue and remain at greater than 2m² per person. In practice, you will need to work with your venue manager to determine a maximum number of people allowed in the venue (providing at least 2m² per person) and ensure that there is never more than that number within the venue.

COMPETITION - DAYTIME & TOURNAMENTS

Daytime Competitions & Tournaments include but are not limited to events run by members or schools including the School Slam Series and member run tournaments, whereby the same group of players and coaches are within a venue for an extended period of time, on the same day, to play multiple games.

Organisers will ensure teams remain separated when not competing and that venue capacities are not exceeded. In the event that a venue does not have sufficient area for teams to wait safely between games outside the court area, consideration should be given to playing competition on every second court, or two of three courts in a three-court venue, to allow for additional safe space.

DEVELOPMENT PROGRAMS

Development programs include Aussie Hoops, All Abilities, Active After School and member generated development programs and camps that involve groups of participants occupying a court but not playing in a game. These programs could be conducted either indoors or outdoors with the variables being spectators, parents and guardians. Members are encouraged to establish effective procedures that will ensure adherence to these guidelines when conducted outdoors. This may include supplying each coach with hand sanitiser and sanitising wipes to provide to participants.

MEANINGS & DEFINITIONS

Within these definitions, 'Group A' refers to the team playing or having just played and 'Group B' refers to the team arriving or waiting for to play in the next game. All efforts should be made to minimise the contact and impact of Group A on Group B. Teams must immediately vacate a court on completion of a game and teams may only enter the court when it has been vacated.

Indoor Undivided Space

During Phase 3 levels of re-activation there will only allowed to be 100 participants per undivided space. An undivided space is defined as a discrete space with solid walls and a roof.

Indoor exercise and sporting activities must be separated from other spaces by a solid boundary to prevent contact and cross-contamination with adjacent spaces.

Administration Staff, Desk Staff, Court Supervisors and Referees

All staff and volunteers involved in the running of games - who are either within a venue or interacting with participants - need to have sufficient access to sanitisers, personal protection equipment and instructions on how to keep safe. This may include the use of face masks, face shields or the installation of screens to protect staff.

Basketballs in stadiums

Basketballs provided by the venue should be sanitised prior to use each day and in between each game. Excluding balls provided by a venue. Any basketball brought into a stadium should be sanitised prior to use at the stadium using a single use, disposable anti-bacteria wipe, or by spraying with a disinfectant spray. This policy is subject to individual stadium restrictions, as some stadiums may not allow participants to bring their own ball into the stadium.

Biosafety Officer (BSO)

A BSO must be appointed at each venue/basketball competition to ensure compliance with COVID-19 Return to Sport Guidelines. The BSO will ensure teams quickly vacate the court on completion of a game, ensure a team cannot enter the court until it is vacant and undertake a head count prior to a game. The game must not commence until this is completed.

Capacity Control

Members should, at all times throughout the pandemic, maintain strict counting of capacity within the stadium. This is to be completed and recorded by the BSO on the Game Day Checklist. It must be clear at all times who the BSO is as they may be required to ask people to leave the venue.

Cash handling

Members are encouraged to develop cash free procedures to reduce the chance of transmission between the user and employees. This may include credit card payments for team sheets of game fees, the concept of a single person making payment on behalf of a team or invoicing of fees to clubs where appropriate.

Child Safety

Members must consider the relevant Child Protection requirements when planning activities.

Contact risk mitigation

Participants are encouraged to shower at home with soap prior to and immediately following all activity.

Participants are encouraged to arrive at the venue ready to participate. This mitigation will be supported with significant hand hygiene strategies at venues.

The normal blood rules will apply.

Court

A Court for consideration in this document refers to a basketball playing court, the 2m run-off zone, the circulation space around the basketball playing court, and any seating specific to that playing court area.

Hand hygiene during training or competition

To reduce the risk of infection during activity when there will be some incidental contact; hand sanitisers will be required on the score benches. Participants will be required to use hand sanitisers at every break in the game, including timeouts, and when substituting in and out of the game.

Non-Essential Services

Changerooms, referee rooms, canteens, public water fountains, general seating areas must remain closed or roped off to the general public in accordance with the relevant reactivation level. Participants should arrive at a stadium ready to compete. Changerooms and Referee Rooms present a significant challenge in adhering to social distancing regulations, therefore these rooms must remain closed. Rooms may be used for storage of person items if required, however players or officials should enter and leave rooms immediately and only one person should be in the room at a time.

Referees & other officials

Members should observe the number of officials permitted as per the guidelines. Members should take care to consider the crossover of officials between playing groups and should ensure officials maintain good hygiene practices. The guidelines have been implemented to reduce contact between playing groups. *Basketball WA* recommends if officials are to officiate multiple games in the same evening that consistent groupings of officials are applied (i.e. officials stay on the one court). Furthermore, if the referee is aware, or is informed that, the court is not complying with the *Return to Sport Guidelines*, the game should be stopped until the situation has been corrected.

Sanitisation

Association staff should sanitise scoring laptops or tablets, score benches, player bench seating, scoreboard controllers and any other essential equipment that may have been used by Group A, prior to use by Group B, to reduce the risk of transmission from one group to another. Hand sanitiser must be available on the score bench for referees & score table officials to use during games.

Seating Areas

In any area where seating is required it should be set according to social distancing guidelines.

Social Distancing

Areas where people may gather or lines may occur should be marked clearly in accordance with the relevant government regulations to encourage participants to follow Social Distancing advice. (For example, 1.5m spacing)

Stadium Entry Signage

Basketball WA will provide members with template signage to use at entries of stadiums. This will include government recommendations on the entry conditions during the pandemic including, but not limited to, references to personal health and at-risk members of the community.

Toilets & Change Rooms

It is important that whenever people are present at the facility that toilet facilities should be provided, and they should be cleaned throughout each day/night. The availability of toilets is a factor that may limit the number of people members can allow into the facility at any given time. For example, if there is only one central toilet block, it may not be appropriate to have three courts running at the same time as it may result in too many people at that central position at one time.

Towels and Drink Bottles

Participants should bring a personal towel and drink bottle to their games and not share these with others.

Uniform Hire

For the safety of staff and volunteers, it is recommended that members refrain from providing hire uniforms during the COVID-19 pandemic period.
